Description: The founder plans to create a multidisciplinary, modern medical center, with the latest equipment and a wide range of high quality medical services in Tashkent. The proposed list of medical services, combined with an innovative approach to patients, will contribute to a high level of trust among people, as well as the competitiveness of the center. A highly qualified staff of doctors with extensive experience in state and foreign institutions will be able to maintain the required level of medicine.

The founder invested $136 thousand for the renovation of premises, renting a building with an area of 3,200 m2, purchasing medical equipment for consumables and medicines, an operating table, an operating lamp, furniture for doctor's offices, and landscaping around the building. Project implementation period after attracting investments: **1 month.**

Required amount of investments: $82 000
