Description: The founder plans to expand the processing and export of licorice root. He purchases licorice root, then dries it and cuts it into pieces to order and size. This root is widely used in the pharmaceutical and food industries in many countries. The author of the project has more than 10 years of experience and has a client base in several countries around the world.
The founder's investment is $70,000

Required amount of investments: $130 000
