PROJECT № 1470
HEATING OIL AND BITUMEN PRODUCTION

REQUIRED AMOUNT OF INVESTMENTS:
$503 000

ANNUAL NET PROFIT:
$531 456

RETURN ON INVESTMENT CAPITAL:
85%

FOUNDER'S INVESTMENT:
$18 000

Our social networks

Description: The founder plans to produce heating oil and bitumen by waste processing in the Namangan region. The initiator of the project has more than 15 years of experience in this industry, and invested **$18 000** to purchase 0.5 hectares of land for production, and also conducted communications. The goods will be sold on the stock exchange of Uzbekistan and in other areas. It is planned to export to Kyrgyzstan and Afghanistan. For the founder, there is no competition in the Uzbek market, thanks to the unique process of processing raw materials. Materials for the production of heating oil are the most affordable, as they consist of waste oil, plastic and cellophane. In addition, the Author of the project will be paid extra by customers for waste disposal.

The demand for heating oil is extremely high, only one of 14 private oil refineries in Uzbekistan consumes about 60 tons of bitumen. Heating oil is also needed by greenhouses, because they have limited access to gas, especially in the winter season. Demand is extremely high, and the cost of production is very low.

Project implementation period after attracting investments: 3 months.

Global Invest

Protected investments in highly profitable projects

Required amount of investments: $503 000

NAME	AMOUNT, $
Purchase of equipment for production	360 000
Delivery and customs clearance of equipment	14 000
Purchase of raw materials to launch the production of fuel oil and oil waste	100 000
Employee salary for 1 month	3 600
Transport costs for 1 month	7 000
Marketing and other expenses	3 500
Taxes for 1 month	14 513
Total	**503 000**

Income data for a month:

NAME	QUANTITY, TN	PRICE PER TN, $	AMOUNT, $
Heating oil	729	619	265 551
Bitumen	183	450	82 350
Total			**347 901**

Global Invest
