PROJECT №1442
PRODUCTION OF NON-WOVEN FABRIC

REQUIRED AMOUNT OF INVESTMENTS:
$5 200 000

ANNUAL NET PROFIT:
$2 796 000

RETURN ON INVESTMENT CAPITAL:
38%

FOUNDER'S INVESTMENT:
$400 000

Our social networks

Description: The founder plans to launch the production of spunlace nonwoven fabric, which is widely used for the production of wet wipes. On average, there are 10-15 wet wipes companies in the country, which use at least 300-350 tons of spunlace (imported mainly from Turkey, Russia and China). Currently, we have our own production of wet wipes; the next step in this direction is the production of spunlace. The initiator's company consumes about 15 tons monthly, steadily increasing the volume. The author of the project has so far invested **$400 000** to launch the plant, reconstruct the building and equipment. One of the advantages is the rapidly growing demand for raw materials, not much competition, contacts of wet wipes manufacturers and short delivery times. Project implementation period after attracting investments: **3 months**

Required amount of investments: $200 000

NAME	AMOUNT, $
Complete automated spunlace production line (10ton/day)	4 000 000
Logistics (28 containers) and customs clearance	400 000
Raw materials for production (300 tons)	600 000
Repair and rental of premises, forklifts (5pcs), certificates and other expenses	200 000
Total	**5 200 000**

Protected investments in highly profitable projects

- Annual profit: $900 000*12 months = **$10 800 000**
- Annual expenses: $667 000*12 months = **$8 004 000**
- Annual net profit: $10 800 000 – $8 004 000= **$2 796 000**
- Return on investment capital: **38%**

$$\textbf{ROI} = \frac{\text{Net profit}}{\text{Investment amount}} \times \text{Investor's share} \times 100\% = \textbf{38\%}$$

DISTRIBUTION OF SHARES:

Investor - **70%** and Founder - **30%** – until the full return on investment.

Investor - **50%** and Founder - **50%** – after the full return on investment. **After 5 years, the author of the project buys out the investor's share, after which the investor leaves the founders.**
