Description: The project is to collect Asafoetida, which is the main raw material for pharmaceutical products, having a huge market in the world, in domestic and foreign markets. Asafoetida is collected from natural plantations. There is no need to build buildings or bring equipment. The founder has 20 years of experience in this industry. There are all the necessary documents and contracts with buyers to implement the project, and to date we have invested **$66 000 in the project. During the seasonal five-month months there are virtually no expenses.**
