Description: The author of the project has his own analytical and trading consulting company with 10 years of experience. In addition to trading, for more than 7 years, there are more than 5,000 equipment under management on mining farms in Kazakhstan, South Korea and Uzbekistan. High and, most importantly, stable profits are achieved thanks to extensive experience, a well-thought-out strategy and competent capital and risk management. Even in case of unsuccessful transactions, the loss is hedged thanks to the mining power. When trading, the investor invests money exclusively in his account, while fully controlling the deposit and withdrawal of funds, which is a guarantee of repayment of funds.
