Description: The founder plans to open a jewelry store in the city of Tashkent. The founder's company is officially engaged in the import of jewelry, and in the future plans to export.

The founder invested **$130,000** for the purchase of jewelry and construction work of the rented premises.

The company is aimed at developing a multi-brand store, rather than working with any specific brand. The jewelry store will feature exclusive collections from various manufacturers. Each buyer has a preference for one or another piece of jewelry, so the initiator offers an assortment for every taste, thereby covering 100% of the audience.

Advantages:

- Officially imported, customs cleared and tested goods, which gives us a 100% guarantee to protect the goods from confiscation and pass any inspection by both regulatory and law enforcement agencies;
- A wide range of jewelry that has not previously been presented on the market of Uzbekistan;
- Cooperation with several countries manufacturers and their brands;
- Qualified personnel;
- Location of the outlet;
- Competent advertising;
- Work is underway to implement a new model for the development of the jewelry market.

Project implementation period after attracting investments: **2 months.**
