PROJECT №1433
PRODUCTION OF POLYMER SUPER GLUE

REQUIRED AMOUNT OF INVESTMENTS:
$400 000

ANNUAL NET PROFIT:
$734 700

RETURN ON INVESTMENT CAPITAL:
129%

FOUNDER'S INVESTMENT:
$600 000

Our social networks

Description: The founder plans to organize the production of polymer superglue in the Tashkent region. The annual volume will be 720 tons of finished glue. At the moment, there is equipment for production, marketing research, contracts with buyers and suppliers. The founder invested $600,000 for the construction of the building, equipment, repair and installation work, operating expenses, etc. The initiator has 7 years of experience in manufacturing.

Advantages:

- The only production facility in Central Asia for the production of polymer super glue;
- There are no barriers to entry into the domestic market or export;
- Constantly increasing demand for this product;
- Wide opportunities for business development and scaling, increasing new product lines from the same glue.
- 65% of the necessary raw materials for creating glue are produced in Uzbekistan.

Project implementation period after attracting investments: **5 months.**
