Protected investments in highly profitable projects

PROJECT №1350
TRAVEL SERVICES PLATFORM

REQUIRED AMOUNT OF INVESTMENTS:
$50 000

ANNUAL NET PROFIT:
$50 000

RETURN ON INVESTMENT CAPITAL:
90%

Description: The founder plans to create a competitive platform in Tashkent - OTA (Online Travel Agency), and register it in the Dubai Free Zone (Zero-Tax policy), which resells tours from small providers and receives a commission for online sales.

Project advantage:

1. Registration of a business in the territory of the state, where taxes are about 30%, and with the help of a tax-free and unregulated standard in the Dubai Free Zone, there will be pure profit without unnecessary costs. Dubai is one of the best places to start a business, as it has a developed banking system with support for electronic wallets, which are the most important platforms for withdrawing profits.
2. Low costs for salaries of specialists. Competitors pay higher salaries due to the high demands of specialists in more developed countries. Specialists of the same level in Uzbekistan will receive several times less, which will save costs.
3. Large companies do not take into account the needs of small operators. The author has a solution to their routine problems in the form of new technologies and monthly subscription offers.

Project implementation period after attracting investments: **3 months.**
