Description: The founder plans to organize logistics consisting of trucks transporting large cargo across Uzbekistan. The project has been launched and is being successfully implemented on a small scale. Due to the daily increasing demand in the logistics market, it is proposed to scale the existing business. Thanks to many years of experience, studying the main and regular customers on the market, it becomes clear that every customer wants to transport their cargo quickly, safely and through a single logistics platform. At the moment, the necessary personnel for the project have been found, drivers with at least 10 years of experience, logistics specialists, reliable and proven services. The founder invested **$662,000** to purchase 6 trucks and start the business.
