$3 000 000

ANNUAL NET PROFIT:
$5 229 200

RETURN ON INVESTMENT CAPITAL:
139%

FOUNDER'S INVESTMENT:
$7 000 000

Our social networks

Description: The founder began the production of fruit and vegetable chips for the first time in Uzbekistan. A specially developed unique technology for the production of fruit and vegetable chips, which has no similar analogues in the Republic of Uzbekistan, is licensed and certified; in addition to mandatory certificates, there is also an environmental certificate, a certificate of conformity, a Halal certificate and a certificate confirming the absence of GMOs in the products produced. The appearance of such a product radically changes the established opinion about the consumer properties of chips and fully satisfies the growing interest of consumers in healthy eating. The founder invested **$7 million** for the purchase of 5.5 hectares, construction of a plant, purchase of equipment and working capital. There is already a full-fledged production facility, consisting of a line of fruit chips and blast freezing. 100% of the products produced are already exported. There is a loan in the amount of $4.3 million. The project could not begin implementation on time due to delays in the supply of equipment due to the pandemic. An investment of $3 million is required to repay part of the loan in the amount of **$2 million and $1 million** for working capital.

Project implementation period after attracting investments: **1-1.5 months.**

Required amount of investments: $3 000 000

NAME	AMOUNT, $
Repayment of part of the loan	2 000 000
Working capital	1 000 000
Total	**3 000 000**

Global Invest

Protected investments in highly profitable projects

Income data for a year:

NAME	AMOUNT, $
Sale of frozen products (cauliflower, broccoli, bell peppers, cherries)	2 548 000
Fruit chips	6 240 000
Total	**8 788 000**

Expenses data for a year:

NAME	AMOUNT, $
Product cost	1 528 800
Taxes	158 000
Fruit chips	1 872 000
Total	**3 558 800**

- Annual profit: **$8 788 000**
- Annual expenses: **$3 558 800**
- Annual net profit: $8 788 000 – $3 558 800 = **$5 229 200**
- Return on investment capital:

$$\textbf{ROI} = \frac{\text{Net profit}}{\text{Investment amount}} \times \text{Investor's share} \times 100\% = \textbf{139\%}$$

DISTRIBUTION OF SHARES:

Investor - **80%** and Founder - **20%** – until the full return on investment.

Investor - **40%** and Founder - **60%** – after the full return on investment.
