Description: It is planned to launch a spinning mill with an annual capacity of 6,300 tons and a vegetable oil plant with a capacity of 30,000 tons per year. The enterprises will produce cotton yarn of various sizes and types, as well as high-quality vegetable oil to meet the demand in the domestic and international markets.

The main export destinations will be China, Turkey, Germany and Afghanistan, and the products will also be sold to other regions of Uzbekistan. The advantage of launching these industries is to meet the growing market demand for high-quality textile and food products, as well as to strengthen Uzbekistan's position as a reliable supplier in the international arena.

The founder invested **$32 million** in the construction and purchase of equipment.

The founder is ready to provide real estate worth **$15 million** as collateral.
