60%

Contact us

Description: The project involves a series of Basmati rice deliveries under an international contract totaling **25,000 tons** per year, with an estimated value of **$30 million**. The product is sourced in India and supplied on a consignment basis secured by a bank guarantee. The primary objective is to secure working capital to support the flow of deliveries. The business model is based on a stable monthly turnover with regular tranches.

Investment Term: Up to 12 months, with the option for early exit.

Target Audience

- B2B
- Wholesale buyers, retail chains, agricultural distributors, food importers and exporters.

Problem the Project Solves

The need for a fast and reliable supply chain for high-quality Basmati rice with guaranteed prepayment from buyers. Additional funding is required to cover logistics costs and fulfill contract obligations on a monthly delivery schedule.

Key Advantages

- Confirmed contract for **25,000 tons** per year with secured logistics
- Ongoing deliveries — the project is already in its active phase
- Operates under a bank guarantee with the option to assign part of the contract to the investor
- Monthly turnover of approximately **$2 million**
- Flexible investment term and fixed return

Global Invest

Protected investments in highly profitable projects

To ensure investment protection, two security mechanisms are in place:

- **Contract Assignment.** A portion of the supply contract equivalent to **120%** of the invested amount is assigned to the investor. In this case, the investor becomes the legal owner of the corresponding share of goods, which is sold exclusively on a 100% prepayment basis to end buyers.
- **Bank Guarantee.** A bank guarantee is issued by a reputable financial institution for the full investment amount, securing the return of invested capital.

Investor Return

The investor receives a fixed income of **5%** of the invested amount for each delivery cycle.

Example:

- Investment: **$100,000**
- Turnover period per batch: ~1 month
- Investor income: **$5,000 per batch**
- Annualized return on capital: **60%**

Required amount of investments: $50 000 - $500 000

Name	Amount, $
Coverage of expenses related to logistics, documentation, and product turnover	50 000 - 500 000
Total	**50 000 - 500 000**
